PROFILE SUMMARY

I am a BSIT graduate from Quaid-i-Azam University. I worked as a Web Engineer at FRPD, developing and maintaining web applications and improving system performance. I also worked as a software engineer in an Australian company and also completed internships in AI at Eve Bytes and in Machine Learning and Deep Learning at National Center for Physics (AITeC), gaining hands-on experience with AI systems and data-driven projects. I have a strong foundation in computer systems, networking fundamentals, and programming in Python, Java, and C++, with project experience in real-time surveillance systems and database-driven applications.

EXPERIENCE

01/2026 - Present Pakistan	Software Engineer FRPD	
10/2023 - 10/2025 Hybrid, Pakistan	Software Engineer Digital Tent Studio, Australia	
08/2024 - 09/2024 Islamabad, Pakistan	Machine Learning & Deep Learning Intern National Center for Physics (AITeC)	
04/2024 - 05/2024 Remote	AI Development Intern Eve Bytes	

EDUCATION

09/2021 – 08/2025 Islamabad, Pakistan	Bachelor of Science in Information Technology (BSIT) Quaid-i-Azam University, Islamabad CGPA 3.3 / 4.0	
---	--	---

SKILLS

Leadership • Communication • Management • Problem Solving • Project Management
Software Development • Python • C++ • Java

LANGUAGES

Urdu • English (IELTS)

PROJECTS

- | | |
|---|------------------------|
| National Zakat Foundation Australia (NZF) Website nzf.org.au | COMPANY PROJECT |
| <ul style="list-style-type: none">Designed and developed the frontend of the NZF website, creating a responsive and user friendly interface for Zakat services, donations, Zakat calculation, support applications, impact stories, and organizational information. | |
| FRPD Research & Policy Platform frpd.pk | COMPANY PROJECT |
| <ul style="list-style-type: none">A professional web platform developed for FRPD to showcase research, policy initiatives, training programs, projects, publications, and organizational information through a structured and responsive interface. | |

| <ul style="list-style-type: none">A responsive corporate website developed for Al Kyanat to showcase its business activities, company profile, services, and corporate information through a professional online presence. | |

City Sahulat Services Platform | citysahulat.com

COMPANY PROJECT

- A web-based home services platform developed for City Sahulat, allowing customers to explore available household services and access service-related information through an easy-to-use interface.

The Distinct Dentistry Website | thedistinctdentistry.com

COMPANY PROJECT

- A responsive dental clinic website developed to showcase dental services, clinic information, and contact details, providing patients with an accessible platform to explore available treatments and contact the clinic.

Real Time Suspicious Activity Detection

FINAL YEAR PROJECT

- A Python-based Suspicious Activity Detection System that uses YOLO pre-trained models to detect harmful behaviors (Gun, Fighting etc) in real-time video feeds and uploaded footage. It sends alerts, logs incidents, and supports multiple camera feeds for enhanced surveillance.

KEY ACHIEVEMENTS

Certificate of Participation

Project Competition Participant, NUST EME — Presented an academic software project at a project competition hosted by NUST EME, demonstrating its technical implementation and practical applications.

Certificate of Appreciation

Actively participated in organizing the event "Open house for final year students", Institute of Information Technology, QAU.

CERTIFICATION

01/2025

International Workshop on Microsoft Technologies

[MicrosoftPak-Finland Capacity Building Initiative \(Phase-1\)](#) held at Quaid-i-Azam University, Islamabad

TECHNICAL CERTIFICATION

05/2025

CCNA: Introduction to Networks

[CISCO](#)

05/2025

Computer Networking

[Ezxpert](#)

05/2025

CISCO Packet Tracer

[Ezxpert](#)

05/2025

VMware Workstation

[Ezxpert](#)

03/2023

Introduction to Cybersecurity Tools & Cyber Attacks

[Credly by Pearson, IBM](#)

03/2023

Ethical Hacking Essentials (EHE)

[EC-Council](#)
